**About InHealth Mutual**

InHealth Mutual is a nonprofit insurer – a consumer operated and oriented plan (CO-OP) – built for members by members to provide quality, affordable health insurance that is responsive to the needs and wants of all Ohioans. It is different from the traditional insurers given its nonprofit status and focus on individuals and small businesses which includes a governing board of directors with a members majority. In addition, any profits will be used to lower the cost of care, enhance benefits or decrease premiums. Being accountable to members versus stockholders is a paradigm shift InHealth believes will result in better health insurance for the people it covers. InHealth offers insurance products to individuals, small businesses and groups through brokers and private exchanges and on the Health Insurance Marketplace (Exchange). InHealth Mutual is a trade name of Coordinated Health Mutual. For more information, visit [www.inhealthohio.org](http://www.inhealthohio.org).
